

L3 Pathways

City College offers various Pathways for learners at a range of levels, helping you shape but not limit your potential future choices in Higher Education and employment.

The L3 pathways only act as guides, helping inform possible learning routes. **Please make your three selections from any of the available options.**

At this stage of application, please also indicate two reserve options, and then enter them into the relevant spaces on the application form.

<https://www.citycollege.coop/> , our website, contains information to help support your course choices.
